

## Maths Year 8

Following on from your recent assessments you have now been given a topic list and a link to video clips on <https://corbettmaths.com/contents/> for support on that specific topic.

Please ensure you are working through your ebi's to ensure you are ready for next year's learning.

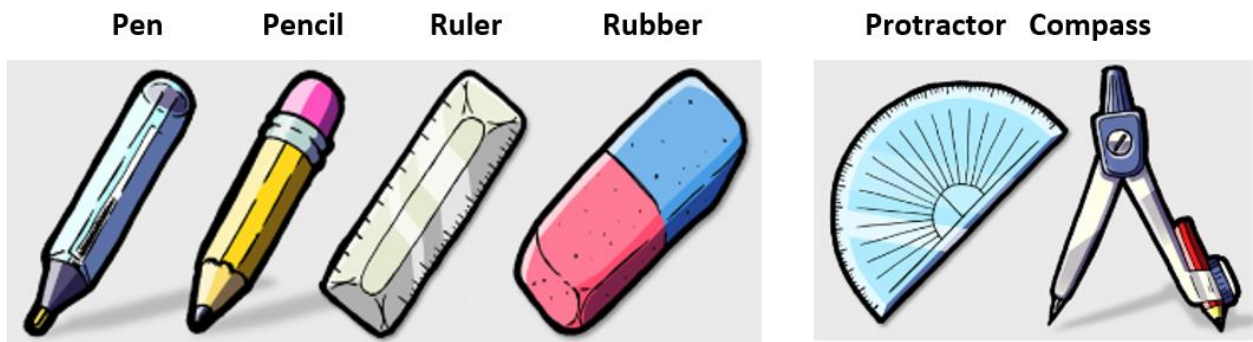

You could also use the following website to support your learning:

MyMaths [www.mymaths.co.uk](http://www.mymaths.co.uk)

username – colc

password – multiply

It is also a good idea to ensure you have all your equipment ready to start Maths next year. For Maths lessons you will need the following:

The Scientific Calculator that we recommend is the CASIO fx-83GTX for Foundation, and the CASIO FX-991EX for Higher.
