

Maths Year 9

Following on from your recent assessments you have now been given a topic list and a link to video clips on <https://corbettmaths.com/contents/> for support on that specific topic.

Please ensure you are working through your ebi's to ensure you are ready for next year's learning.

You could also use the following websites to use to support your learning:

- ❖ Past papers and mark schemes can be downloaded at <https://www.ocr.org.uk/qualifications/past-paper-finder/>

Select → Mathematics → GCSE → Mathematics (J560)

You can select any year and find papers and mark schemes for both tiers of entry so choose the foundation or higher tier.

- ❖ MyMaths www.mymaths.co.uk username – colc password – multiply

Two more really useful sites, with lots of resources are <http://corbettmaths.com/> with practice GCSE questions by topic and <https://www.savemyexams.co.uk/gcse-maths-ocr/>

Other exam boards have GCSE Maths papers that students could look at for support, lots of these can be found at <https://www.mathsgenie.co.uk/papers.html>

It is also a good idea to ensure you have all your equipment ready to start Maths next year.

For Maths lessons you will need the following:

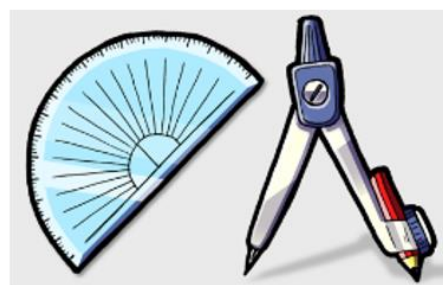

Pen

Pencil

Ruler

Rubber

Protractor Compass

The Scientific Calculator that we recommend is the CASIO fx-83GTX for Foundation, and the CASIO FX-991EX for Higher.

Foundation

Higher
