

Year 10 Spanish Summer Work

I know I know! The **summer** is for relaxing and recharging your batteries. BUT it's important for you not to lose all the amazing work you have done this year, particularly with the **grammar**, so here are some tasks you need to do over the **holidays**, whilst **relaxing** and resting!

You will need:

- AQA Spanish Grammar, Vocabulary & Translation Workbook – Higher or Foundation

Complete the tasks below – try to spread them out and do a couple each week. **RETO** tasks are optional but if you have a target of 7+, you should be completing these.

Higher

- Language Nut tasks x 3

- Page 8 irregular present tense
- Page 9 reflexive verbs
- Page 10 Ser / Estar
- Page 11 tener

- RETO**: Page 38 conditional

You will have a **grammar test** when you come back after the summer and you **MUST** know your present, preterite and near future tenses as a minimum.

You also have your **speaking mock** in the first few weeks, so make sure you have prepared answers for all the topics we have covered so far in your booklet. Everything except New Tech, Global issues and Theme 3.

Be Ambitious! It would be an **excellent** idea to organise your notes into a folder with topic dividers. This is a good idea for all your subjects, so you start year 11 really organised and can find all of your resources for when you want to start your revision - the earlier the better.

Have a wonderful **summer!**
